SHANDY							
We are slowly emerging from the covid-19 pandemic and are							
following city ordinance and the CDC guidance. It took a heavy							
toll on all of us in the industry, as well as on the medical							
professionals here and around the world. Homes and businesses							
have been shattered, many lost their jobs, so please be courteous to							
our staff, many of us are recovering from the pains of the pandemic							
and economic hardship. If you have an urge to complain about							
anything, please talk to me directly to remedy your complaint. We							
find it more productive than a bad review online, it will give us a							
chance to correct what you brought up.							
Thank You,							
Michael Tabrizi
